

# inn nntp news server - temeljna konfiguracija

written by js | 2022-02-21

- `sudo apt install inn`
- "Postfix Configuration" = "Internet with smarthost"
- "System mail name" = za sada izmislimo "systemmailname.lokal"
- "SMTP relay host (blank for none)" = za sada izmislimo npr "smtprelayhost.lokal"
- `nano /etc/news/inn.conf` i dodaj:
  - `pathhost: innserver.local`
  - `organization: INNserver`
  - `server: innserver.local`
- `nano /etc/news/nnrp.access`:
  - `kREMiraj: # *:: -no- : -no- !*`
  - dodaj na kraj: `*:Read Post::*` (svi smiju sve)
- `ctlinnd newgroup Proba123`
- `service inn restart`
