

Python i UTF8 i UnicodeDecodeError

written by js | 2022-06-23

python.py

```
with open("datoteka.md","r") as fajl: print (fajl.read())
```

Rezultat:

```
UnicodeDecodeError: 'charmap' codec can't decode byte  
0x%RANDOM1% in position %RANDOM2%: character maps to  
<undefined>
```

python2.py

```
with open("datoteka.md","r",encoding="utf-8") as fajl: print  
(fajl.read())
```

Rezultat:

blabla serkenj šďčćž ŠĐČĆŽ itd

python print utf8 utf-8 datoteka file xpython xprint xutf8 xutf-8 xdatoteka xfile
xerror error
