

Microsoft Edge - Copy paste ne radi

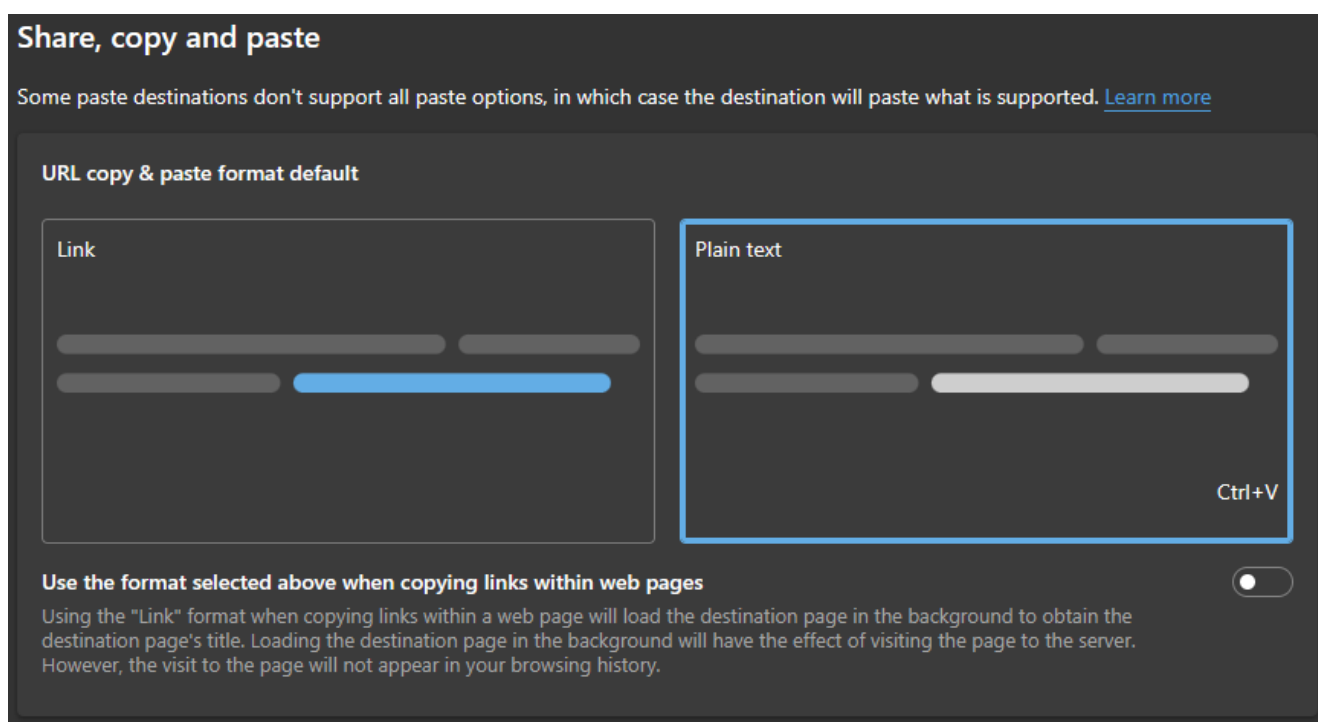

written by js | 2022-07-30

Problem

Microsoft je u ms-edgeu (Windows; nisam testirao na Linuxu) napokon uspio usрати copy-paste proceduru koja je radila na kompjutorima još valjda od 1970-tih do mjere da ponekad uopće ne radi.

Rješenje

Čini se da malo pomaže ako “edge://settings/shareCopyPaste” podesiš ovako

xedge xmsedge ms-edge xms-edge xmicrosoftedge microsoftedge cospypaste xcopy xpaste defunct xdefunct not working notworking ne radi neradi xneradi usrano xusrano
