

# Ubuntu Linux Terminator podrazumijevane dimenzije

written by js | 2023-04-13

- `terminator --geometry=1800x600` # nekakvi blesavi uniti, nije u characterima niti u pixelima

Ako editiraš shortcut / skriptu [`sudo nano /usr/share/applications/terminator.desktop`]:

```
Exec=terminator --geometry=1600x800
```

---

`terminator xterminator geometry xgeometry size xsize xy characters xcharacters  
dimension xdimension dimenzije xdimenzije veličina xveličina xgeometrija  
geometrija default xdefault`
