

# Ubuntu - SSH - Onemogućí prijavu lozinkom

written by js | 2023-05-06

Preduvjet: prvo omogući autentikaciju certifikatom (v. pod Ansible)

## Onemogućídba

- `nano /etc/ssh/sshd_config`

Dodaj ili promijeni:

```
PasswordAuthentication no
```

Spremi i:

- `service ssh restart`

---

```
ssh xssh disable xdisable password xpassword nopassword xnopassword  
authentication xauthentication
```
