

Dodaj zapis u Windows EventLog

written by js | 2021-08-27

Tema

Kako zapisati događaj u Windows EventLog.

Postupak - tl;dr

CMD / Powershell

```
EventCreate /L Application /T Information /SO MojaAplikacija /ID 999 /D  
"Aplikacija pokrenuta [%DATE%] [%TIME%] nešto"
```

Radi samo s administratorskim računom.

ID: 0-999

Slike

```
C:\>EventCreate /L Application /T Information /SO MojaAplikacija /ID 999  
/D "Aplikacija pokrenuta [%DATE%] [%TIME%] nešto Powershell"  
  
SUCCESS: An event of type 'Information' was created in the 'Application'  
log with 'MojaAplikacija' as the source.
```
