

Gajim - Ubuntu - Omemo fuckery

written by js | 2023-08-31

Poruka

TypeError: Descriptors cannot not be created directly.
If this call came from a `_pb2.py` file, your generated code is out of date and must be regenerated with `protoc >= 3.19.0`.
If you cannot immediately regenerate your protos, some other possible workarounds are:

1. Downgrade the `protobuf` package to `3.20.x` or lower.
2. Set `PROTOCOL_BUFFERS_PYTHON_IMPLEMENTATION=python` (but this will use pure-Python parsing and will be much slower).

Rješenje

```
pip install protobuf==3.20.*
```
