

Automatsko pokretanje naredbe odmah nakon restarta

written by js | 2021-08-29

Tema

Kako pokrenuti nešto odmah nakon pokretanja računala

Linux - “systemd service”

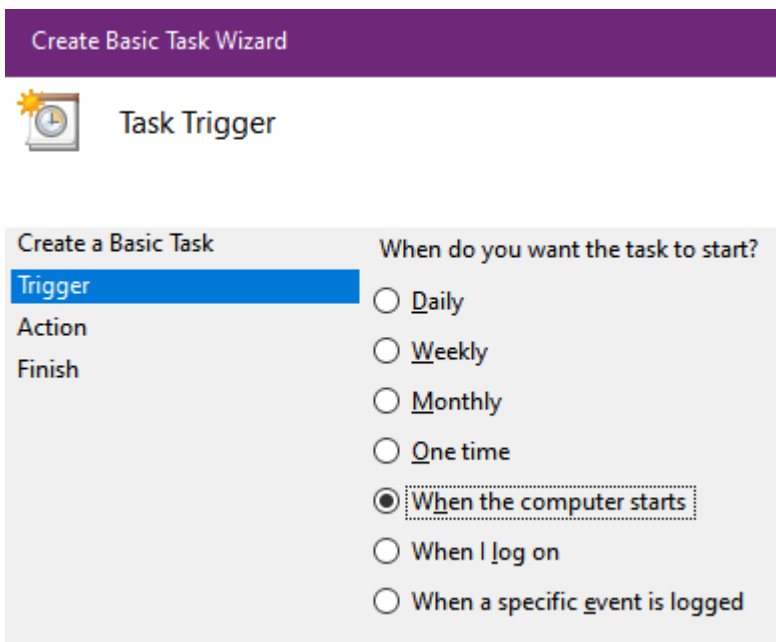

- Kreiraj svoju skriptu - nano /root/LeSkripta.sh:
 - `#!/bin/bash`
 - `cd /root`
 - `echo Proba123 > proba123.log`
 - `cp proba123.log proba234.log`
 - `exit $?`
- Kreiraj servis - nano /etc/systemd/system/LeSkripta.service:
 - `[Unit]`
 - `After=network.target`
 - `[Service]`
 - `ExecStart=/root/LeSkripta.sh`
 - `User=root`
 - `Group=root`
 - `TimeoutStartSec=30`
 - `[Install]`
 - `WantedBy=default.target`
- `chmod 744 /root/LeSkripta.sh`
- `chmod 664 /etc/systemd/system/LeSkripta.service`

- `systemctl daemon-reload`
- `systemctl enable LeSkripta.service`

Linux - “rc.local”

- `sudo nano /etc/rc.local`
 - `#!/bin/bash`
 - `/user/korisnik/lestonesto.sh`
 - `exit $?`
- `sudo chmod +x /etc/rc.local`

Windows - taskschd.msc (Scheduled task)

...
