

# Outlook desktop - View - Postavi view na folder i podfoldere

written by js | 2024-01-08

## Umjesto ovoga..

## ..stavi VBA

```
Sub MojPogledView()  
    Dim CurrentFolder As Outlook.Folder  
    Dim i As Long  
    Dim objViews As Views  
    Dim objView As View  
    Set CurrentFolder = Application.ActiveExplorer.CurrentFolder  
    Set objViews = CurrentFolder.Views  
    Set objView = objViews.Item("MojPogled")  
    objView.Apply  
    For i = CurrentFolder.Folders.Count To 1 Step - 1  
        Set olNewFolder = CurrentFolder.Folders(i)  
        Set objView = objViews.Item("MojPogled")  
        objView.Apply  
    Next i  
End Sub
```
