

Powershell pwsh7 intellisense autofill Windows Terminal

written by js | 2024-02-22

Zatvori sve powershellove, windows terminale, blabla i otvori pwsh kao Administrator.

```
Install-Module PSReadLine -AllowPrerelease -Force
```

Notepad \$profile i dodaj na kraj:

```
Import-Module PSReadLine
Set-PSReadLineOption -PredictionSource History
Set-PSReadLineOption -PredictionViewStyle ListView
Set-PSReadLineOption -EditMode Windows
```
