

# Trilium - Promjena porta

written by js | 2024-11-07

Editiraj..

```
~/.local/share/trilium-data/config.ini
```

..i promijeni..

```
[Network]
```

```
# port setting is relevant only for web deployments, desktop  
builds run on a fixed port (changeable with TRILIUM_PORT  
environment variable)
```

```
port=8082
```

Naravno, možeš se okušati i sa gorespomenutom environment varijablom.

---

```
trilium port xtrilium xport
```
