

# Windows 10 - Toast notification

written by js | 2021-11-21

## AutoHotKey

```
Naslov = "Naslov .....1.....2.....3.....4.....  
.....5.....6.....7.....8.....9.....0"  
Sadrzaj = "Sadržaj .....1.....2.....3.....  
.....4.....5.....6.....7.....8.....9.....  
.....0.....1.....2.....3.....4.....5.....  
.....6.....7.....8.....9.....0", 1  
TrayTip, %Naslov% , %Sadrzaj% , 1  
Sleep, 300000
```

## Powershell

```
$Milliseconds=300000  
$Title=" .....1.....2.....3.....4.....  
.....5.....6.....7.....8.....9.....0"  
$Text = " .....1.....2.....3.....4.....  
.....5.....6.....7.....8.....9.....0.....  
.....1.....2.....3.....4.....5.....6.....  
.....7.....8.....9.....0"  
Add-Type -AssemblyName System.Windows.Forms  
$global:balloon = New-Object System.Windows.Forms.NotifyIcon  
$path = (Get-Process -id $pid).Path  
$balloon.Icon =  
[System.Drawing.Icon]::ExtractAssociatedIcon($path)  
$balloon.BalloonTipIcon =  
[System.Windows.Forms.ToolTipIcon]::Info  
$balloon.BalloonTipText = "$Text"  
$balloon.BalloonTipTitle = "$Title"  
$balloon.Visible = $true  
$balloon.ShowBalloonTip($Milliseconds)
```

[hxxps://stackoverflow.com/questions/61971517/powershell-send-a-toast-notification-to-logged-user-when-running-as-local-syste](https://stackoverflow.com/questions/61971517/powershell-send-a-toast-notification-to-logged-user-when-running-as-local-syste)

Također pogledaj i "All settings" -> "Focus assist" i "Notifications & actions" jer nisu uvijek i sve notifikacije dopuštene, a zahvaljujući sposobnosti programera poduzeća koje vrijedi kao 1,5 bilijun dolara, ni one notifikacije koje jesu dopuštene i imaju prioritet neće biti uvijek prikazane, a mi se možemo jebat.
